Hey Erin,

That's great news. I will definitely be available to you for that meeting. You will receive a calendar invite with a web conference link in it shortly.

Thanks for keeping me updated and I look forward to our next steps!

Have a great weekend!

Hello Courtney,

Jared and I spoke with the Chief's secretary today and compared calendars. We have a meeting set for April 23rd, Tuesday, 2:30pm -3:30pm in the Chief's Conference room. There is a large monitor in the room that seats 25+. I'm Not sure who all will be invited. We hope that you can be a part of this meeting to answer questions, but if not Jared said he thinks he can walk everyone through the software possibilities. He also told me that next week he is going To devote some time to trying to upload the 'problem video' he encountered, and if he continues to have a problem Will call your video support to see what is causing the problem.

Thanks for your assistance, Erin

Hi Courtney,

Jared, I and the rest of the Lab attended the NEIAI conference T/W at Mahoney State Park, which is located along the Platte River. This is the river that caused

Lincoln the flood problems and well damage. The River has lowered and slowed since I last drove over it (which freaked me out!!). One of our two damaged

Wells is back in business. The other well is badly damaged, so I'm not sure how long that will take to fix. The water restrictions have been lifted, so it seems all is well

And gone back to normal. I spoke with the Asst. Chief today (again) about Vintra and he has asked that I set up a meeting with the Chief's secretary. Jared's in court,

so we are going to try to tackle that tomorrow. I think it might be good to have you in on the meeting (via computer) and to show the Chief and whoever else he

invites, Jared's test cases, along with your sample cases. Also, that way Jared and I won't miss-state anything. I will get back with you tomorrow after I find out what

the Chief's schedule looks like.

Thanks, Erin

Hey Erin,

I hope all is well in Lincoln and you have gotten past some of the flooding issues. I wanted to find out if Jared has been able to test the system and identify next steps. If he needs more time, let me know...

Thanks!

Hey Erin,

Thanks for the update! So sorry to hear that you guys have been affected by the flooding! I was in Colorado Springs when the "Bomb Cyclone" hit that later dropped all the rain on your area and it was nasty!

Hope all is well and I will check back in with you guys in a week or so.

Cheers,

Hello Courtney,

I'm answering for Jared, he has been off W/T/F this week at a conference in St. Louis. I know he was having some problems uploading a cleared case

(wanting to see if we missed anything) and I'm not sure if he was able to work through that before he left. He will be back Monday.

We have not forgotten you. We have been training a new Video Hire the last three weeks (we've been working two years to get a 2nd A.V.Tech.)

So have been busy, but happy!! We have spoken to the Chief about Vintra, and he wants to get a meeting set with our partners (agencies our lab

Does work for) to discuss the funding part of it. The Chief, the Mayor, & numerous upper management city employees have all been focused on other

Things with the flooding around our community that damaged two of the three city water wells. We are hoping things get stabilized for us soon, and

I will discuss this with Jared when he gets back.

Hey Erin and Jared,

I wanted to check in to find out if you have been able to use the system during the trial? If you need assistance with an investigation, please do not hesitate to reach out. We need to wrap up the trial soon, so if you haven't been able to use it yet, please let me know!

Thanks,
